Permanent Residency Bill

Debate:

1. [ROM5419, MP, NAT] First of all, this MP would suggest waiting for the house to settle down first. Alright, due to this being the final session of this parliament period, this bill had to be presented again for the final reading today. Amendments from the previous sessions regarding this contemptuous bill remain in effect. Since there were no major objections brought up on discord this past week. This MP is satisfied with the current bill details for final voting. So anything still up for debate? the house may discuss before we proceed to voting.

Permanent Residency Bill 2018

A
B I L L
TO

Commence the introduction, implementation, and optimisation of the Permanent Residency rank as an interim rank between sojourn and citizenship as part of immigration reform.

Be it enacted by the president of the federation of WolvHaven, by and with the advice and consent of the Senate and Representatives, in this parliament assembled, and by authority of the same, as follows -

1. New Permanent Resident (PR) rank for new immigrants (players)

- a. New players who have passed both the Citizen Test and manual background checks will be promoted to PR rather than be granted citizenship.
- b. The primary purpose of the PR rank is to provide an additional layer of security to protect against new players of malicious intent, and maintain the culture and demographics of the server community; while providing more opportunities for players deemed illegitimate for citizenship to experience the server's features.
- c. The Citizen Test will remain as-is, but will be renamed as the Immigration Clearance Examination (ICE), or simply "Immigration Test".
- d. There will also be changes to the Citizen rank in order to accommodate the proposed additional immigration regulations.

2. Permanent Resident (PR) rank details

- a. The new PR rank will retain many original citizenship privileges, including:
 - i. Employment in businesses and as railway drivers
 - ii. Permission to access Sandbox, Gardellia, and Pangaea
 - iii. Permission to build in Pangaea and Sandbox
 - iv. Permission to use stored-value Metro+ cards
 - v. Permission to speak in the WolvHaven Discord
 - vi. Permission to own property in the City
- b. However, the following privileges require further promotion to citizenship:
 - i. Ownership of public housing units
 - ii. Eligibility to vote in server elections
 - iii. Eligibility to form or join political parties
 - iv. Permission to apply for Architect rank
 - v. Permission to apply to build in Gardellia
 - vi. Citizen-tier punishment protocols for rule violations

- c. PRs are also subject to:
 - i. Taxation based on net worth
 - ii. Harsher tourist punishment protocols

3. Permanent Resident (PR) to Citizen Promotion Criteria

- a. Any permanent resident shall be granted citizenship by administrators under the following conditions:
 - i. Permanent Residency for at least 1 week, subject to behavioural monitoring reports from peers.
 - ii. The PR must submit to server staff a self-introduction document written in either essay or point form, stating their player information, their rationale for joining the server, and what they could contribute to the server. The document must be in a language readable by at least one staff member.
 - iii. The PR must go through another (less intensive) round of manual background checks.
 - iv. The PR must have NO bans or active warnings in the past 3 months.
 - v. The monthly citizenship quota has not been exceeded. (ref clause 4a)
- b. A permanent resident shall be blacklisted (permanently refused) from obtaining citizenship if any of the following are met:
 - i. The PR has been (permanently) banned more than once.
 - ii. The PR is an active member of a rival server or cybercrime organisation blacklisted for acts of terrorism against WolvHaven.
- c. Administrators reserve the right to promote PRs to Citizen unconditionally if the PR in question has shown exceptionally benevolent behaviour.
- d. Administrators are also permitted to demote PRs to Tourist if the PR's current behaviour justifies such punishment.

4. Changes to the Citizen rank

- a. There will now be a maximum quota of citizen promotions to reduce the workload of Administrators and maintain the sustainability of the server community. The quota is to be reset every month, and the limit is dynamically determined based on the active player population, current availability of administrators, and the security level/defence readiness of the server.
- b. Citizens that satisfy any of the following conditions will be demoted to PR:
 - i. One unappealable permanent ban
 - ii. Two appealable permanent bans
 - iii. Four temporary bans due to warnings
 - iv. Eight imprisonment periods
 - v. Convicted of acts of treason (e.g. espionage on behalf of foreign entities)

5. Short title

- a. This act may be cited as the Permanent Residency Act, 2018.

6. Implementation

- a. This act will only go into effect once the following are met:
 - i. Approval from the President,
 - ii. Approval from the incumbent Prime Minister, and
 - iii. Server permissions updated according to the act details.
- b. Clause 4 is only to be enacted once Clauses 1, 2, 3 have been in effect for at least one month and deemed acceptable.
- c. Players promoted to Citizen before this act goes into effect will only be affected by clause 4b.
- d. Tourists who have completed the Citizen Test but have not yet been promoted before this act goes into effect will be promoted to Citizen if eligible.
- e. Tourists who take the Immigration Test after this act goes into effect will be subject to all relevant clauses of this act.
- a. In the event that this act is to be repealed without any equivalent replacement, all current PRs are to be immediately demoted to the Tourist rank.

Anti-plagiarism Bill

Debate:

1. [_Noodur, Independent] So just a quick question to the honorable author to this bill. Who or what is the council mentioned in the said bill?
2. [y0urs_Tr1y, Independent] The council refers to the executive branch, in simple terms, admins and above.
3. [Starcubed, Independent] So the bill does not specify how long the ip ban will be, so how long will the ban be if one were to be found guilty of plagiarism.
4. [y0urs_Tr1y, Independent] I refer thee to WolvHaven Statute II/D/1.10.2, I presume all are too lazy to look so, "Any IP ban is to be made in conjunction with a permanent ban.". However, note that this does not apply in all cases of plagiarism. Only in cases where an individual copies from the server for use in other servers.
5. [mopistudios, Independent] Thank you Mr Speaker, I would like to ask y0 why in clause 2.b there will be no notice given, why not give a notice? Copied in what sense? Directly copied or inspiration? I'd like to say that the person you are talking about has since removed the build to my knowledge. also if the person does not decide to sue them will there still be a punishment?
6. [y0urs_Tr1y, Independent] Because there is no need to. If you have copied from some else, you know it, so I do not need to go around looking for all possible cases to notify you. Directly. If sufficient changes are made that it may be considered your own work, you will not be charged under this. That is beside the point. In any case, if you have copied someone else's work, and do not wish to remove it, that is a calculated risk that you have decided to take. If a person decides not to pursue charges, then it is the same as giving permission. So no, there will not be any punishment. Also my dear Mr Speaker. Am I to expect that you will continue to allow mopsi to interrupt me? Or are you going to do your job.
7. [Speaker] You seem to be responding to him as if in conversation, but sure.
8. [Guywhosbadatmath, MP, HGP] I would like to ask the proposer of this bill, does one deserve an ip ban from copying one of their own creations in gardellia, is that considered copying from WH?
9. [y0urs_Tr1y, Independent] No. You have the right to reuse your own creations as you see fit.
10. [mopistudios, Independent] Thank you Mr Speaker. I would like to ask the proposer. Will the accused be given a chance to defend his/her case?

11. [y0urs_Tr1y, Independent] Yes as per clause 15.2, if they wish to dispute the charge, the council will be the final judge, and we will hear any defence they wish to provide, within reason.
12. [Starcubed, Independent] So if, oh wait, Sorry i didn't read the bill property.
13. [y0urs_Tr1y, Independent] Well, you took the words out of my mouth
14. [guywhosbadatmath, MP, HGP] I once had a situation I overheard a conversation where I overheard a conversation: Guy X was looking at a building made by guy Y. Guy X wanted to make a landscaper version of guy Y's building. Guy Y says yes. In the last bill proposed on plagiarism, you had to show evidence of this agreement. How will this agreement be proven in the bill.
15. [y0urs_Tr1y, Independent] Same as with any other contract. You are advised to have some form of written or screenshot proof if you expect to later be backstabbed. We will make effort to look up chat logs, and in the event of such disputes, we shall leave it to the discretion of the adjudicating bodies to make an appropriate decision. Perhaps leniency, if no history of fraud is found. However, do remember that attempts to backstab another player is illegal under WolvHaven Statute II/D/9.2.
16. [MatthieuTofu, Independent] Could the proposer of the bill clarify the term "council" in the clause 1/15.2
17. [y0urs_Tr1y, Independent] Objection your honour. Asked and answered.
18. [mopistudios, Independent] I would like to remind the attendees of this parliament that the term council is defined in the wolvhaven statute.
19. [Starcubed, Independent] can i make a call on the bill itself, like not towards mopistudios call. So what does y0 mean when he says generic building, what is defined as a generic building
20. [y0urs_Tr1y, Independent] Something that I can realistically create without inspiration from an outside source. Like a random flagpole, or a lightpost, or a dirt house. Or something with no noteworthy design elements that would characterise it as unique. Do I need to go on?
21. [Starcubed, Independent] At what point are we allowed to proceed to voting?
22. [Speaker] After you leave my chamber. Under standing order 94a, as you have caused disruption to this house, i hereby eject you, Starcubed, from the chamber, you may return in 10 minutes.
23. [y0urs_Tr1y, Independent] I was going to reply, as soon as everyone is done questioning this bill.
24. [MatthieuTofu, Independent] Thank you Mr. Speaker. If in the case that a player has been known to plagiarise on other servers, will it be taken into account in architect/gardellia apps or will staff not consider evidence from other servers other than WH?

25. [y0urs_Tr1y, Independent] Objection your honour, relevance? This question has no relation to the bill at hand and is questioning architect/gardellia applications. Regardless, I will say that that will be left to whomever is in charge of those applications.
26. [autobus22, MP, HGP] I've in the past created buildings to be used on multiple servers, here and elsewhere. Would you mind clarifying if that would still be allowed under these rules? as I therefore technically give myself permission under 1.15.6. Would my friend mind repeating the answer? Discord is not functioning as it should as expressed earlier.
27. [y0urs_Tr1y, Independent] Objection your honour, asked and answered. Very well. Yes. you are giving yourself permission. Therefore you are free to use any creation of your own wherever and however you see fit. Mr Speaker, may we move on please?
