Contract Bill

---

### Debate:

**The SPEAKER:** First bill contracts bill, proposed by minebuilder1223. That leave be given to read a Bill to adopt a standardized and organized system for the Ministry for Infrastructure to issue contracts for infrastructure, for the third time.

**MachineMatster:** The problem is this may just end up not being enforced like the council is now. It may be good for 5h but for gardellia i don't think the regular player will will enjoy going through this bureaucracy. In my opinion it's just simple for gardellia players to directly question a staff member regarding projects in/outside their borders and that there should be less government construction oversight in gardellia.

**Mysticlorde:** Thank you Mr Speaker. I would just say that yes the regular player who likes developing his gardellia town would not be in favour of that, i mean may. But as you see his excellency the president has already experimented with contract in gardellia that's why I accepted his suggestion to include gardellia in the bill, but yes, the government should cooperate with the player involved in these gardellia projects in which the projects involve his claim.

**MachineMatster:** the difference being that these are for personal projects. i will withdraw to let minebu speak.

**Minebuilder1223:** Thank you Mr Speaker. After recommendations were made in the previous readings of this bill, an amendment has been made so that the changes made by this bill extend to Gardellia. I am confident in the success of this bill and will be further supplementing it upon the passing of it.

**MachineMatster:** Im just questioning if people will accept this bill since some ignore the gardellia council bill. Will the contracts bill follow suit and be lacking enforcement, as well as the ministry should be fined much more than the current 5% if overdue and there should be a time limit to when gardellia players want to build for example an airport but have not gotten an approval. who approves of these contracts? Just minebuilder. or the council that is pretty much dead. i let minebu speak

**Minebuilder1223:** Thank you mr speaker. May i ask the honourable member whether he has read the bill throughout. Firstly, this bill does not change anything regarding private ventures such as town - town railway lines. It is only regarding federal infrastructures. Such as the gardellia mainlines. It is the Ministry for Infrastrucutre which hands outcontracts to corporations which then build them. If a person wants to edit a mainline going through their town, then that process is unchanged by this bill and will continue as normal. This bill is for if the federal government wants to extend infrastructure for which it is responsible. And would like to delegate the responsibility for building it to corporations. It does not affect how players apply for railway lines to other towns or edit the mainlines

**Mysticlorde:** Thank you Mr Speaker. I would just like to add on, mat, you said "the ministry should be fined much more than the current 5%"? I think you meant. the ministry should fine the contractor more than 5% but anyway yes it can increase it to 7% maybe

**The SPEAKER:** please call other member in third person. Does the proposer agree increasing the fine to 7%?

**Minebuilder1223:** Thank you mr speaker. I beg to move that an amendment be made to add "federal" before the word "infrastructure" in clause 1/a.

**The SPEAKER:** The question is does the house agree to pass this bill.

## Parliament Discord Voting Bill

---

### Debate:

**The SPEAKER:** Second bill, Parliament Discord Voting Bill, proposed by MachineMatster, a Bill to set up a system more accessible to vote on WolvHaven Parliament bills, for the first time.

**MachineMatster:** Not all WolvHaven citizens are available to attend parliament sessions due to constraints from different time zones to busy irl schedules. The goal of this bill is to provide a system for more accessibility to all who want to vote but due to certain circumstances may not come online during the particular time parliament is in session. At this time I have not concluded how long of a time period to allow after parliament. I am aware this may not be popular due to that people will have a less incentive to attend parliament. However I believe for the greater good. For wh elections is already able to vote via discord then perhaps give parliament a try as well.

**BlueTheGiantNoob:** Thank you Mr Speaker. My suggestion for a timeframe after parliament in which you may vote from discord. for all time zones to have a chance to vote i would recommend anything from 24 to 48 hours.

**Minebuilder1223:** Thank you Mr Speaker. May i ask the honourable gentleman opposite whether he is aware of the green paper published by his excellency the president regarding major reforms to parliament?

**MachineMatster:** No, I have not read it.

**Minebuilder1223:** That green paper recommends something very similar to what is being recommended here. And i believe such reforms should be made in co-operation rather than different fragmented pieces of legislation which do not work together. Therefore i ask the proposer of the bill to withdraw for now.

**MachineMatster:** I'm reading it right now and i do see the how similar it is. However let's face it, by the time that reform gets off its ass it be forever. I want to really get the ball rolling as well as i only see that just "MP votes are to be considered" and i also want to clarify that my bill also would state that "procedural votes remain in live parliament." only the final vote would be up on the discord

**Minebuilder1223:** Thank you Mr Speaker. If these 2 proposal are so similar, why should they be written, debated on, and implemented entirely separately? We are in no rush to produce this and parliament is currently running down as this parliamentary term comes to a close. I believe it is in our best interests that this issue is dealt with in a coordinate and collaborative way

**MachineMatster:** Thank you. just the idea itself is similar as I provide more details on the voting procedure and the debate to make amends within parliament and discord chat, is open. it's just that the reform paper was published back in september and i've never was made aware of it. however even if one were to go ahead with the reform paper's view on section 26, so many changes would have to be made. i don't think the community would be happy that only MPs would be able to vote. it would have to be built from the ground up whereas my bill is open to discussion is what i'm trying to point out. fin

Parliament Discord Voting Bill

A  
**B I L L**  
TO

Set up a system more accessible to vote on WolvHaven Parliament bills

**B**e it enacted by the president of the city-state of WolvHaven, by and with the advice and consent of the Senate and Representatives, in this parliament assembled, and by authority of the same, as follows -

**I. Purpose:**

- a. Difficulty for some players to attend based on time zone, for example the west coast of North America
- b. Players with busy irl schedules. Some people may not have time to be online for hours for all bills or a particular bill.
- c. Have a higher voter turnout.
- d. Since April 2018 the the WolvHaven elections made it more accessible to vote via discord with a success. This type of progress should be expanded into parliament voting.

**II. Implementation of System**

- a. A new channel in the discord where only players both ranked Citizen(+) and Verified discord ranks may vote.
- b. The *Parliament Voting Regulation Act 2017* is still in effect.
- c. Voting opens when a WolvHaven staff, parliament staff, or MP member posts “Parliament session has concluded.”
- d. Voting on a bill concludes at (not set on time yet)UTC.
- e. Any votes with a “(edited)” on their discord post will NOT be counted.
- f. To vote a player must write out their in game name, title name of the bill, and choosing aye or nay for each separate bill.

Example#1: MachineMatster, Parliament Discord Voting Bill, Aye

Example#2: IGN,abc Bill, Nay

**III. Abuses**

- a. Impersonation and/or misusing the vote system is considered as voter fraud
- b. Any abuse will not be tolerated.

- c. Players may ONLY post in regards to section II.f. with the exception being II.c.
- d. Punishments will result in no less than 1 parliament session banned from voting within the discord channel or an official warning.
- e. If player desires to discuss a bill then that is to be in #parliament or during parliament session.

#### **IV. Short Title**

- a. This act may be cited as the Parliament Discord Voting Bill act of 2018.

#### **V. Implementation**

- a. This act will go into effect immediately after it receives approval from the president.

### Disestablishment of Gardellia Council Bill

---

#### Debate:

**The Speaker:** Third bill, Disestablishment of Gardellia Council Bill, proposed by MachineMatster, a bill to Disestablish/ nullify the Gardellia Federalisation & Council Establishment Bill.

**MachineMatster:** After a whole year since the Gardellia Federalisation & Council Establishment Bill was implemented, the result as been seen as a letdown. Gardellians have not been able to get accustomed with a council idea to vote regarding a rejection on projects, extending outside city borders. With the inactivity of the Gardellia Council it will be confirmed by law that WolvHaven staff members will take over full responsibility. Gardellians tend to play favorites with alliances or wh staff members. It may come to no surprise today that i'm not in favor of government bureaucracy

**Minebuilder1223:** Thank you Mr Speaker. I must admit that it is about time that the gardellian council should be legally abolished. therefore i am in favour of this bill although it could be worded much more simple IMO.

**MachineMatster:** did the honorable minebuilder mean to say "more dead" when he said "morded"?

**Minebuilder1223:** Thank you Mr Speaker. I meant "worded" sorry

## Disestablishment of Gardellia Council Bill

A  
**B I L L**  
TO

Disestablish/ nullify the *Gardellia Federalisation & Council Establishment Bill*

**B**e it enacted by the president of the city-state of WolvHaven, by and with the advice and consent of the Senate and Representatives, in this parliament assembled, and by authority of the same, as follows -

**I. Propose:**

- a. With the *Gardellia Federalisation & Council Establishment Bill* being implemented back in September of 2017 the noise of excitement a year ago has died. It may have had good intentions then, however some people these days are calling the council a failure & letdown.
- b. The council's main goal included to regulate all projects outside of city borders.
  1. Players in turn created their own alliances to internally settle disputes, however as we have seen before these disputes become filled with drama to the point the WolvHaven staff becomes involved to investigate. It is not the council who steps in the first place.
  2. Whereas Gardellians instead of sending their motions to the council for voting, Gardellians send them directly to WolvHaven staff.
- c. There is no guide easily available to newcomers to explain the Gardellia Council's rules, making it more confusing to newcomers since more veterans are ignoring the Gardellian's Council existence.
- d. Gardellians are discouraged to learn that their major projects have to go through a motion vote within the council with no definitive date on a answer.
- e. Disestablish/ nullify the *Gardellia Federalisation & Council Establishment Bill*
- f. To simply put it, there is no force willing to enforce the council.

## **II. Questionability**

- a. Gives the impression that Gardellia operates under separate values, laws, principles etc.
- b. The region's political stability could be compromised by highly developed yet disobedient municipalities abusing such autonomy.
- c. If Gardellians request for channels to voice their concerns and interests, they might as well do so appropriately via political parties and parliament.

## **III. Political parties opinion**

- a. A few parties have previously discussed the integrity of implementing the Gardellia Council, however in the end some were willing to give it a try.
- b. In the voting period the majority of the opposition parties of the bill were unable to attend resulting in a unanimous yes vote.

## **IV. Who will take over?**

- a. With the inactivity of the Gardellia Council it will be confirmed by law that WolvHaven staff members will take over full responsibility.

## **V. Short Title**

- a. This act may be cited as the Disestablishment of Gardellia Council Bill of 2018.

## **VI. Implementation**

- a. This act will go into effect immediately after it receives approval from the president.

**Parliament adjourned at 15 30.**
