**The PRIME MINISTER:** the members who disagreed are not in attendance

**minebuilder1223:** actually I rescind my call

**The SPEAKER:** alright. does mopsi wish to have voting now or when the opposition is in attendance

**The PRIME MINISTER:** I don't have a problem with voting right now.

## Motion

**SilverWolv**

To move that Parliament recognise the updated Treatise on Parliamentary Practice

---

**The SPEAKER:** on to motions, which there is one by SilverWolv to move that parliament recognize the updated treatise on parliamentary practice

[https://docs.google.com/document/d/1YI\\_N0pR6UnV3LQ6LYwoSBNAgguO9WIFD8Ha6GjFvNkM/](https://docs.google.com/document/d/1YI_N0pR6UnV3LQ6LYwoSBNAgguO9WIFD8Ha6GjFvNkM/) please read and discussion may begin

**minebuilder1223:** Thank you mr speaker. May I first begin by saying what an honour it is to be serving parliament in this great chamber for the last time. I have, with the advice and contribution of silverwolv, developed a series of new standards of parliamentary practice which shall govern the way digital parliament is conducted. The vote today shall be a way of this parliament to recognise and endorse these new practices and i hope that it shall be approved by this house so that things may run as smoothly as can be

**The SPEAKER:** thank you. the speaker has a question to ask. voting period ends 24 hours after the speaker raises the question. is this fixed or can be changed

**minebuilder1223:** fixed, your honour

**SilverWolv:** fixed

**minebuilder1223:** but obviously there can be some deviation

**The SPEAKER:** alright, thanks for the clarification. anyone else want the call. Devin

**DevinBrantley:** thank you mr speaker. although I do fully support the transition to discord parliament as it will open parliament to everyone. I do find that only mps being able to vote quite restricting. although if that wasn't in place it would cause likely chaos, i do think it still limits to a too large of a scale if the number of mps is increased it would fix this problem

**minebuilder1223:** may I interject?

**DevinBrantley:** ye

**minebuilder1223:** I was going to respond by saying the same thing. It would be wise of us maybe to increase the number of available seats in the winter election in order to counteract this process.

**The SPEAKER:** okay. anyone else? mibu

**Minebuilder1223:** may i move a motion?

**The SPEAKER:** sure

**minebuilder1223:** Mr Speaker, I beg to move that this house is of the opinion that penalties resulting from the misuse of worldedit should be made tougher and defined in law as part of the penal code.

**The SPEAKER:** motion accepted. Y0

**y0urs\_Tru1y:** permission to disregard all parliamentary etiquette. this fool gon get his ass yelled at.

**The SPEAKER:** provisionally granted

**y0urs\_Tru1y:** I GAVE YOU ACCESS TO THE FUCKIN WIP STATUES SO YOU CAN DO EXACTLY THAT. JUST GO AND DO IT.

**minebuilder1223:** May i interject

**The SPEAKER:** order

**y0urs\_Tru1y:** NO. jk.

**The SPEAKER:** approved

**minebuilder1223:** Well this government has a certain plan for updating the new statutes. That is that they will be introduced over time by a number of bills. and the statutes page shall be updated accordingly. This would be one of those bills

**The SPEAKER:** would y0 like to continue

**y0urs\_Tr1y:** yes.

**The SPEAKER:** shoot

**y0urs\_Tr1y:** then ask for what? if your plan is to make a bill anyway which will have to pass through here anyway, we are just wasting time now.

**The SPEAKER:** anyone else. alright then, general debate? or shall we have the final vote of adjournment. now this is anticlimactic. Mibu

**minebuilder1223:** May i speak in response to y0?

**The SPEAKER:** accepted

**minebuilder1223:** My intention is that all new offences should be ratified by parliament. And we want to have the original versions of the offences in the actual acts of parliament themselves. Not in a separate document

**The SPEAKER:** thanks. Calls?

**minebuilder1223:** Actually i propose a toast to physical parliament

**y0urs\_Tr1y:** since misuse of w/e was alrd made an offence by exec order long ago. just write it down as such and you can skip going thru parl.

**The SPEAKER:** alright. you wanna toast. the question is if the house of representatives adjourn... permanently?

**Kangaroo567:** may I make a motion first

**The SPEAKER:** halt halt. Kangaroo

**Kangaroo567:** ty mr speaker. I would like to move to reduce the slow mode time for the discord parliament channel from one minute to thirty seconds (if it isn't too late to do that) that way for general debate people wouldn't have to wait a full minute to discuss their side while still preventing people from spamming

**The SPEAKER:** would you want voting for your motion

**Kangaroo567:** yes

**The SPEAKER:** okay

**SilverWolv:** amendment to the treatise basically

**The SPEAKER:** any comments?

**SilverWolv:** Thank you, Mr. Speaker. The original intention was for it to be for 5minutes. however, from testing, it was determined that it was too long. The reasoning behind keeping a 1minute slowdown is to ensure that all members send their speeches/messages in proper paragraphs, ensuring their points are laid out correctly. 30 seconds may cause some chaos within the debate but I am open to the idea of trying it out and have parliament vote on it again come the second digital parli session.

**The SPEAKER:** anyone else, ah well. we shall now vote on this then. the question is slow mode 60 sec to 30 sec for discord parliament
